01 — Product Overview

What is EventoraX?

EventoraX is a multi-tenant SaaS platform for universities, colleges, companies, and NGOs to manage events end-to-end — from creation to QR ticketing, digital certificates, ID cards, and automated emails.

User Roles

Role	Access	Who
Superadmin	Full platform control	ORBIT-I / Owner
Org Admin	Full control of their org	University registrar, company admin
Org Manager	Create events, manage attendees, issue certs	Event coordinator
Org Viewer	View only — reports, analytics	Department head, auditor
Public User	Register, download certs, verify	Students, participants

Core Problems Solved

Problem	EventoraX Solution
Manual paper attendance	Digital QR-based attendance tracking
Handwritten/Word certificates	50 professional certificate templates + PDF export
No certificate verification	SHA-256 public verification page
Scattered tools (Forms, Excel, email)	One unified platform for entire event lifecycle
Expensive foreign SaaS (USD pricing)	Affordable PKR pricing — JazzCash / Easypaisa support
No ID cards for participants	4 professional ID card templates with PDF export
Manual email sending	Automated emails: confirmation, certificate, reminders

Plans

Feature	Pro — PKR 20,000/yr	Enterprise — PKR 25,000/yr

- Fields: Full Name, Organization Name, Email, Password, Phone
- 1-day free trial clearly stated
- No credit card required badge
- On submit: account created → redirect to org dashboard
- Terms & Privacy links

Terms of Service /terms

- Full legal terms — ORBIT-I / EventoraX ownership

Privacy Policy /privacy

- Data collection, usage, and storage policy

404 Page

- Branded error page with back-home button

03 — Superadmin Panel

Access: Separate login at /superadmin or admin.eventorax.com — ORBIT-I / platform owner only.

Dashboard /superadmin

- Total tenants: active, trial, expired, suspended
- Revenue overview: monthly, yearly, all-time (PKR)
- Total events across all orgs
- Total registrations and certificates issued
- New signups this month (chart)
- Recent activity feed
- Alerts: expired trials, failed payments, errors
- Quick actions: Add tenant, View logs, Send announcement

Tenant Management /superadmin/tenants

- Table: Org Name, Plan, Status, Trial End, Created, Actions
- Actions: View details, Change plan, Extend trial, Suspend, Delete
- Filter by: status, plan, date range
- Search by org name or email
- Drill-down: see tenant's events, team, usage stats
- Impersonate tenant: login as that org admin

Plans & Pricing /superadmin/plans

- List all plans with feature matrix
- Edit plan: name, price, feature toggles
- Create new plan
- Toggle plan visibility (show/hide on pricing page)
- See how many tenants are on each plan

Revenue & Payments /superadmin/revenue

- Revenue by month (chart)
- Revenue by plan (pie chart)
- All transactions: org, plan, amount, date, method, status
- Manual payment confirmation (for bank/JazzCash/Easypaisa)
- Export transactions as CSV
- Outstanding / unpaid list

Certificates /superadmin/certificates

- All certificates across all tenants
- Search by verify code, name, email
- Revoke certificate (with reason)
- View certificate details
- Download count per cert
- Bulk revoke by event or tenant

Users /superadmin/users

- All user accounts across platform
- Filter by role, tenant, status
- Reset password
- Disable / enable user
- View user's tenant and activity

Analytics & Reports /superadmin/analytics

- Monthly new orgs chart (12 months)
- Monthly events and registrations charts
- Plan distribution pie chart
- Top 10 most active organizations
- Top 10 events by registrations
- Certificate issuance trend
- Export all reports as PDF or CSV

Email Templates /superadmin/emails

- Edit all system email templates
- Template types: Welcome, Registration Confirm, Certificate, Renewal, Expiry Warning
- Rich text editor for HTML emails
- Preview email
- Send test email
- SMTP configuration (host, port, user, pass)

System Settings /superadmin/settings

- Platform name, logo, favicon
- Contact email, WhatsApp number
- Trial period in days (global default)
- Maintenance mode toggle
- Announcement banner (sitewide message)
- Payment account details: JazzCash, Easypaisa, Bank IBAN
- File upload limits
- Default certificate template
- SEO: meta title, meta description

Security & Activity Log /superadmin/security

- Full activity log: who, what, when, IP address
- Filter by action type, user, date
- Failed login attempts list
- Suspicious IP detection
- Export security log
- Session management: force logout any user

Maintenance /superadmin/maintenance

- Version number display
- Enable / disable maintenance mode
- Database backup trigger

- Cache clear button
- Error logs viewer
- System health check: DB, storage, email, queue
- Cron job status

Announcements /superadmin/announcements

- Send email announcement to all tenants
- Send to specific plan (Pro only, Enterprise only)
- In-app notification to all dashboards
- Schedule announcement for future date
- View sent announcements history

04 — Organization Panel

Each org gets their own dashboard at /dashboard after login. All data is fully isolated per tenant.

Dashboard /dashboard

- Welcome message with org name and plan badge
- Trial expiry warning bar (if on trial)
- Stats: Total Events, Total Registrations, Certificates Issued, Team Members
- Recent events table (last 5)
- Registration trend chart (last 6 months)
- Quick actions: Create Event, Add Attendee, Generate Certs
- Upcoming events list
- Recent activity feed

Events /dashboard/events

- List: Name, Date, Mode, Status, Registrations, Actions
- Status badges: Draft, Upcoming, Active, Completed, Archived
- Create Event fields: Name, Mode (Physical/Online/Hybrid), Date, Time, End Date, Venue, Organizer, Topic, Description, Categories, Certificate Template, Max Attendees, Ticket Price, Registration Open toggle, Meeting Link (online), Auto-issue Cert toggle
- Edit / Delete / Duplicate event
- View event detail page with full stats
- Filter by status, mode, date range
- Search by name

Registrations / Attendees /dashboard/registrations

- Filter by event (dropdown)
- Table: Ref No, Name, Email, Phone, Department, Roll No, Category, Status, Registered Via, Date
- Status options: Registered, Attended, Absent, Cancelled
- Add attendee manually (form)
- Import CSV: upload → map columns → preview → confirm
- Mark attendance: change status to Attended
- Bulk actions: mark all attended, export selected
- Export to Excel / CSV
- Send email to selected attendees
- Delete attendee
- Search by name, email, ref no

Certificates /dashboard/certificates

- List: Name, Event, Verify Code, Type, Issued Date, Downloads, Status
- Generate single certificate: pick attendee → generates immediately
- Bulk generate: select event → generate for all Attended attendees
- Send certificate via email (with verify link)
- Download certificate as PDF
- Revoke certificate
- Preview certificate before generating
- Certificate template selector (50 templates)

- Customization: org logo, signature field
- Verify code and SHA-256 hash shown on each cert

Certificate Verification /verify (public)

- Public page — no login required
- Enter verify code → show result
- Result: Name, Event, Org, Date, Category
- VERIFIED (green) or INVALID (red) badge
- SHA-256 hash shown
- Share button

QR Tickets /dashboard/tickets

- Auto-generated on each registration
- List: Ticket No, Attendee Name, Event, Type, Used/Unused, Issued Date
- QR code display per ticket
- QR scanner page: camera-based scan at event entrance
- Mark ticket as used on scan
- Bulk download tickets (ZIP of PDFs)
- Send ticket via email

ID Cards /dashboard/idcards

- Select event and attendees (or all)
- Choose ID card template (4 templates)
- Customize: org logo, fields to show
- Preview ID card
- Generate & download as PDF (bulk or individual)

Speakers /dashboard/speakers

- Per-event speaker list
- Add speaker: Name, Title, Company, Topic, Bio, Photo, LinkedIn
- Edit / delete / reorder speakers
- Option to display on public event page
